

## GoTo Connect for K-12

All-in-One Platform to Connect, Educate, and Support Student Success

GoTo Connect keeps students, parents, and staff connected, whether in the classroom or learning remotely. Combining an award winning phone system, video and communication tools powered by AI into one secure platform. GoTo Connect helps schools achieve better learning outcomes by providing the tools needed to support safe and connected educational environments.

### A Solution Tailored for Modern Education

Host secure video classes, tutoring, and on-demand sessions to support flexible and accessible learning environments.

Safeguard your school with emergency tools, fast-response calling, mass notifications, and safety integrations for critical updates.

Integrate with top software partners like MS Teams, Singlewire, CirQLive, Calendly, and more to enhance learning experiences.

AI tools improve classrooms and ease admin work with GoPilot, summaries, and insights. Helping staff focus on student success.

### Seamless integrations with your most-used apps

## GoTo Connect for K-12

All the communication tools your school needs to communicate, collaborate and create better learning experiences.

### All-in-one Communication Platform

Bring calls, video, email, and all the communication tools your school needs together in one easy-to-use platform made for education. Keep track of everything in one place to make communication simple and ensure every question or concern from students, parents, or staff is answered. Built for hybrid, remote, and in-class learning environments, it keeps everyone connected.

### Trusted Multi-Channel Engagement

Keep parents, students and staff informed with communication tools like SMS, email, WhatsApp and more. Share school news, important updates, and send automatic reminders for things like parent-teacher meetings, after-school activities and announcements. Keep everything organized, with all conversations managed in one easy to use shared inbox.

### Staff Collaboration Tools

Keep educators, administrators and departments connected with an easy-to-use platform for calls, video meetings, and messaging. With features like group messaging, calendar invites, and collaboration tools, your team can stay aligned and organized. So everyone can focus on working together and supporting student success.

### Reliable Communication for School Safety

Reach staff, parents, and students instantly during emergencies using real-time messaging, emergency calls, and alerts with InformaCast, CatapultEMS, and STOPit Notify. Stay connected with a cloud based phone system that keeps running even during outages with prioritized calling to emergency services. Access call transcripts instantly to investigate and respond with care and urgency to safety concerns or threats.

### AI-Powered Tools for Enhanced Learning Experiences

AI tools like GoPilot, meeting summaries, and insights save time for administrators, staff, and educators, allowing them to focus on students and create better learning experiences. These tools help identify communication trends, understand learning patterns, and automate everyday tasks to improve efficiency.

## Guiding Administrators, Educators, and Students towards success

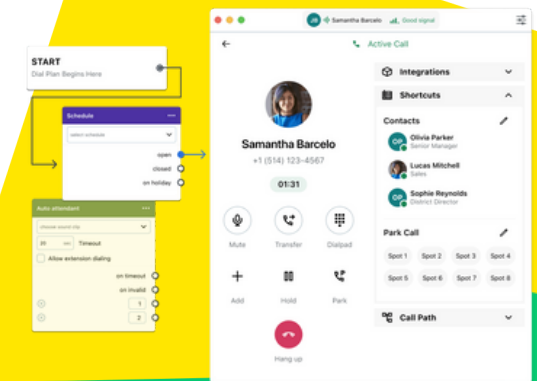

**For Educators:** Host student classes, online tutoring, and parent-teacher meetings with secure video calls. Share notes and other materials using chat and screen sharing tools.

**For Administrators:** Share schedules, updates, and messages with parents, staff and students using email, WhatsApp, and more, all-in-one easy to use platform.

**For Students:** Join safe, online lessons from anywhere, watch classes on-demand, and make hybrid learning easy. Stay connected with virtual study groups, share materials, notes and quick updates with messaging so you always stay in sync.
